

THE FUEL DELIVERY

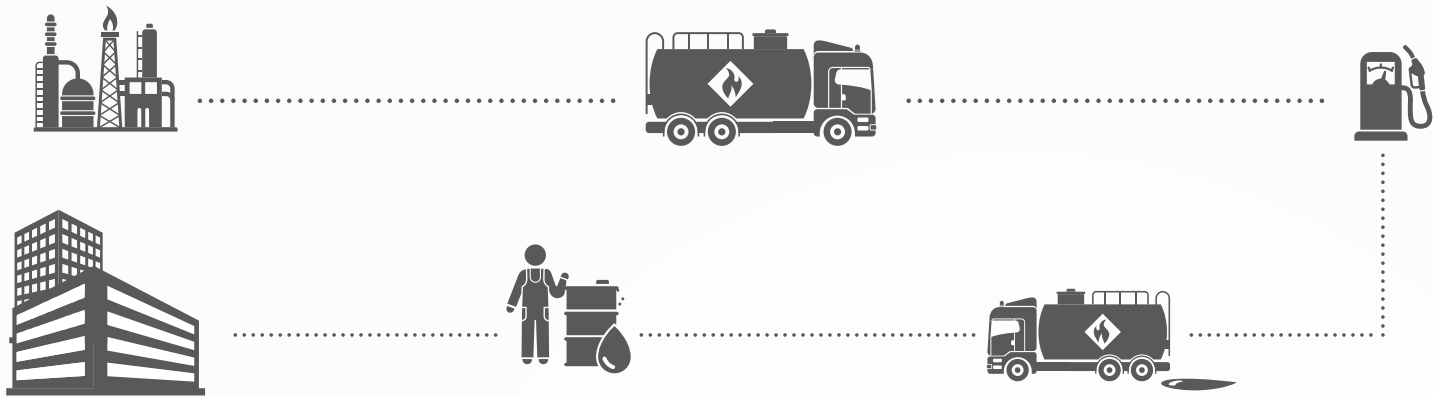

DELIVERY

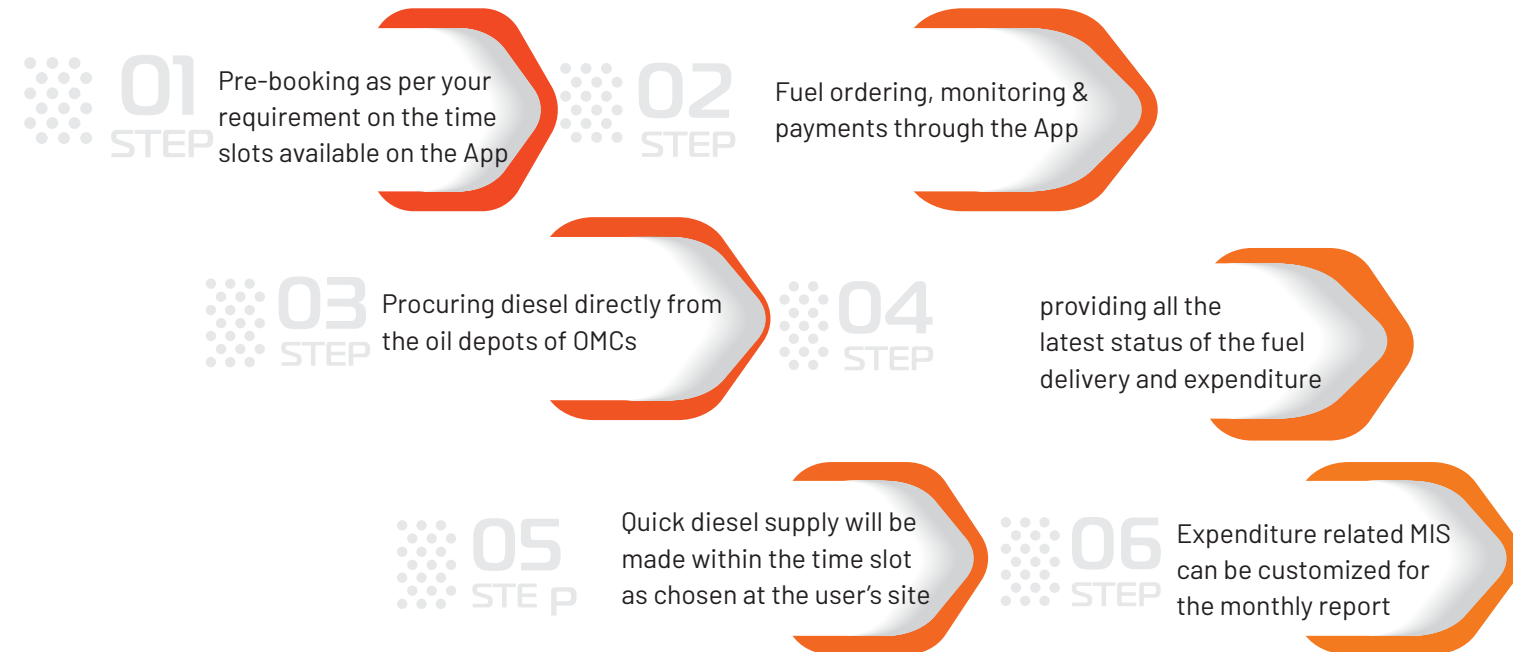

THE DIESEL PROBLEM

Diesel procurement for personal and/or for professional use is done in a manner which is unsafe and dangerous. The customer goes to the pump to buy the diesel and the transportation from there incurs.

Wastage | Leakage/Pilferage | Evaporation | Loss of Time While The Diesel is Delivered

USP OF TFD

THE SOLUTION - FAYDAA

Fuel At Your Doorstep Anytime, Anywhere

The Fuel Delivery (TFD) is an endeavor to largely solve the issue of managing your fuel requirements efficiently, cost effectively and most importantly, safely.

We intend to deliver diesel to users in the manner prescribed by the Petroleum Ministry & licensed by PESO (Petroleum & Explosives Safety Organization).

On-demand Fuel Delivery App

Fetch fuel on-demand, anytime, anywhere with the help of our smart app that reduces the hassles of procuring fuel and other diesel requirements. This app allows users to track their orders, usages and get on-time notifications about their orders.

Ensuring Quality, Quantity & Timely Deliveries

SAFETY

The services are delivered through a customized pick-up truck. These trucks and fuel tanks are as per the guidelines of PESO (Petroleum & Explosives Safety Organization)

TRAINING

The drivers of these vehicles are HAZMAT trained in security measures as laid down by PESO. The vehicles are fitted with state-of-the-art technology & safety gear to ensure smooth, reliable and safe deliveries.

TECHNOLOGY

Our IoT-enabled solutions allow users to track in real-time, monitor fuel level, manage logistics, reduce order fulfillment time and each of our vehicles has quality calibration mechanisms to ensure value for money.

The **Future** Of TFD

Subject to Government regulations we endeavor to revolutionize fuel delivery in India, by transporting fuel at the doorstep of customers.

Our mission is to:

1. Deliver high quality fuel anywhere, anytime
2. Provide best service at all times

Our aim is to serve millions of users & businesses in metro as well as tier 2, tier 3 cities. Time is precious and with our services, our customers can use it more productively.

Going forward we will deliver

• **Petrol** • **CNG** • **EV**
